

HARSHIL PIPALIYA

Jr. Software Engineer

📍 Ahmedabad, India | ✉ pipaliyaharshil26@gmail.com | ☎ +91-9408564942 | 🔗 [LinkedIn](#)

Profile Summary

Dynamic web developer with experience in creating scalable and accessible applications using **React, Next.js, JavaScript, Vite, and Redux**. Achievements include enhancing page responsiveness by up to **30%** through the implementation of optimized UI components and a clean architectural approach. Proven ability to integrate third-party services and collaborate effectively within agile teams to deliver production-ready solutions, serving over **50,000** active users.

Technical Skills

- **Languages:** JavaScript, TypeScript
- **Libraries/Frameworks:** React.js, Node.js, Express.js, MongoDB, Next.js, Redux
- **Web Technologies:** HTML5, CSS3, RESTful APIs, Tailwind CSS, Bootstrap
- **Soft Skills:** Team Collaboration, Problem Solving, Accountability, Continuous Learning

Experience

Junior Software Engineer, Rapidops Inc. – Ahmedabad, Gujarat, India Aug 2024 – Current

- Contributed as a front-end developer in a team managing a headless CMS product for e-commerce platforms such as Shopify, BigCommerce, and Magento, used by 25+ enterprise clients.
- Delivered more than ten client-specific e-commerce themes by extending and customizing the product's base themes to meet brand and functional requirements.
- Co-developed the foundational base theme for Magento, used as a template for future client builds.
- Implemented dynamic schema injection (JSON-LD) across base themes to improve SEO visibility; ensured 100% validation via schema.org and Google Rich Results Test.

Software Engineer - Intern, Rapidops Inc. – Ahmedabad, Gujarat, India Jan 2024 – Aug 2024

- Built responsive front-end interfaces using HTML5, CSS3, Bootstrap, JavaScript, and React under mentorship.

Projects

Rapid Page Builder

- Engineered a blog scheduling and publishing web platform using **HTML, CSS, JavaScript, MySQL, MongoDB, Node.js** and **Express.js**. Enabled users to create, schedule, and automatically publish posts at predefined intervals.
- Implemented asynchronous scheduling logic with optimized database performance to ensure stability and scalability. Improved publishing efficiency by **40%** while delivering a seamless and reliable user workflow.

CMS (Experro) Custom Themes

- **Diamond Directs** is an e-commerce platform. Enhanced overall website performance and **page speed** by **35%**, resulting in faster load times and smoother user experience. Integrated key features, including **Apple Pay** support and an interactive **3D jewelry builder**, to enhance user engagement and checkout flow.
- **Diamonds by UK** is a full-scale e-commerce jewelry platform where I worked end-to-end on development and optimization. Achieved up to **90% page speed** performance, delivering a fast, smooth, and responsive shopping experience.
- **Other Themes:** [Experro](#), [Rapidops](#), [Dunkin's Diamonds](#)

Education

GEC, Gandhinagar Sector-28, Gujarat, India

Sept 2021 – June 2024

- Bachelor of Technology in Computer Engineering
- **CGPA:** 7.33/10
